#### STARSkate Competition Requirements – Triathlon

This is a brief note to inform you that there will be no changes to the STARSkate competition requirements for the 08-09 season. You may recall we had postponed a decision last season to make changes to the Triathlon categories re free skate test requirements i.e. stipulating that the free skate test was a firm requirement rather than 2 out of the 3 tests (free skate, skills, interpretive) of the particular level, and noted the implementation would occur this coming season. However the Skating Programs Committee has since determined that any changes to the STARSkate event categories should wait until Skate Canada's LTAD plan is fully formulated and finalized. Therefore, STARSkate competition categories will remain status quo for 08-09.
